

LOSS OF HISTORICAL RECORDS STATEMENT

In an unfortunate accident the Chaconas Homeowners Association HOA lost its entire historical records box in a flood that occurred in Mr. AT Morrow's house where the records were being stored. Mr. Morrow was the HOA's Vice President.

The flood occurred when he was out of town on a business trip for 3 months and his kitchen refrigerator ice machine water refill valve failed to shut off and flooded the entire kitchen and basement below with 3" of water. It is surmised that they sat in the water for close to two months.

The records were kept in a cardboard box and were virtually destroyed.

A new set of records starting in 2018 were started and are contained herein.
